

Bridging the Inner World and External Network Realities in Child Psychotherapy

Online 18th September 2026 9:30-12:30 CET Time

The Study Day is a half-day seminar organised by the European Federation of Psychoanalytic Psychotherapy (EFPP). Its principal aim is to promote a clinical and theoretical dialogue between the four Psychoanalytic Sections under the Federation's umbrella: adult, child & adolescent, couple & family, and group.

This EFPP Child & Adolescent Study Day will be based on the clinical work of **Marileen Olenko**, child & adolescent psychoanalytic psychotherapist in Estonia:

"How can we bridge the gap between our inner world and external reality without disrupting the therapeutic relationship?"

Marileen Olenko is talking about a five-year-old boy, driven by a constant need to destroy, break, tear, and pulverize various objects, plunges those around him into confusion and helplessness. The challenge for the therapist is to work simultaneously with his own inner world and with the pressure and expectations of parents, teachers, and support people.

Program

9:30-9:45

Welcome and introduction
Odile Gavériaux
Chair of the EFPP Child &
Adolescent Section

9:45-10:15
